photo upload logic

```
JFileChooser file = new JFileChooser();
if (file.showSaveDialog(null) == JFileChooser.APPROVE_OPTION) {
try {
BufferedImage img = ImageIO.read(file.getSelectedFile());
Image edited_image = img.getScaledInstance(60, 80,
Image.SCALE_SMOOTH);
if (edited_image != null) {
imgLabel.setText(file.getSelectedFile().getAbsolutePath());
this.userInfo.setPic(new ImageIcon(edited_image));
}
} catch (Exception ex) {
JOptionPane.showMessageDialog(this, "Please upload image correctly
correctly.", "Error - Incorrect image", JOptionPane.ERROR_MESSAGE);
ex.printStackTrace();
}
}
```
